# MIXER

Swift mixers with low power rating Kw 0.37, easy and economic construction, for mixing on little tanks max 1 m<sup>3</sup> for low viscosity fluid. Impeller "MARINE PROPELLER" inclination of 35°. Available in Aisi 304 or PVC coating.

# SERIES MR

Slow mixers, used in water treatment, on little-medium tank max 10 m<sup>3</sup> of capacity. Impeller with 4 inclined blades. The shaft of the mixer is directly key coupled with the hollow shaft of worm gearbox. Available in Aisi 304-316 or PVC coating.

**Swift mixer with rigid coupling to 4-6-8 poles motors equipped whit a stuffing box and radial bearing and gasket ring.**

**Impeller "MARINE PROPELLER" inclination of 35°. These mixers are particularly suitable for mixing or dissolution of products whit low viscosity in little-medium tank.**

**Material Aisi 304-316 supplied whit shaft and impeller.**

# SERIES RLV

Slow mixers fitted with gear-box coupled to the shaft power.  
 Shaft available in Aisi 304-316 or sheathed rubber. Impellers: Turbine type or special profile.  
 These agitators are particularly suitable for mixing of solution with middle density-viscosity.  
 Used on water treatment and chemical plants on medium-large tanks.  
 This series is completed with equipment max rating kw 15, and max length max 5 mt.
